

GRANT HANDLING

Field Service Engineer - Essex Area

- Applications are required for the position of Field Service Engineer located in or within travelling distance of the Colchester & Chelmsford Areas.
- Applicants should have a proven track record in material handling maintenance or that of an allied industry such as Plant, HGV or Agricultural Equipment service and repair; they should also hold a full current driving license.
- Successful applicants will be home based and required to service and maintain materials handling equipment on our customer's sites located throughout the Essex area.
- Good communication skills, a clean and tidy appearance and a pleasant and helpful manner are also essential.
- A company vehicle will be provided together with corporate work wear, relevant safety equipment and tools, but personal hand tools will be required.
- We offer excellent rates of pay, ample overtime and other benefits associated when working with a constantly expanding national company.
