

Block No	Unit Title
1	Health and Safety Practices in the Lift Truck and Powered Access Industry
2	Lift Truck and Powered Access Electrical units and Components – Part 1
3	Lift Truck and Powered Access Electrical units and Components – Part 2
4	Lift Truck and Powered Access Mechanical Handling, Chassis Units and Components - Chassis Part 1
5	Lift Truck and Powered Access Mechanical Handling, Chassis Units and Components - Chassis Part 2
6	Lift Truck and Powered Access Power Plant and Cooling system units and components - Engines Part 1
7	Lift Truck and Powered Access Fuel, ignition, Air and Exhaust system units and components - Engines Part 2
8	Knowledge of Lift Truck and Powered Access Driveline Units and Components
9	Routine Lift Truck and Powered Access Maintenance
10	Knowledge in Inspecting Lift Truck and Powered Access
11	Diagnosis and Rectification of Lift Truck and Powered Access Electric Motors and Speed Control System Component Faults - Part 3
12	Diagnosis and Rectification of Lift Truck and Powered Access Electric Motors and Speed Control System Component Faults - Part 4
13	Diagnosis and Rectification of Lift Truck and Powered Access Engine Units and Components
14	Diagnosis and Rectification of Lift Truck and Powered Access Mechanical Handling and Chassis System Faults
15	Diagnosis and Rectification of Lift Truck and Powered Access Transmission and Driveline System Faults
